1. Transmitted herewith is BNCF-203.
2. We are sympathetic to [] desire to fulfill the responsibility of reporting on DTLINEN within the framework of [] regular monthly progress report, or in such special reports as that on []. At the same time, every attempt should be made in the monthly report to achieve coverage which compares favorably in completeness with coverage of other [] projects. We therefore recommend that reporting on activities of DTLINEN not be made separate from the overall report of [] monthly activities but that, on the other hand, fuller information on DTLINEN operations be included in the monthly report.
3. The problem of reporting on DTLINEN is an old story with which we are all familiar, the difficulties involved being considerably greater than with any other project run by []. We are, moreover, of the opinion that in order for this monthly coverage to be adequate we should first of all prepare a comprehensive, analytical report on DTLINEN that can serve as a repository of everything we know about the organization and as a point of reference for subsequent coverage. [] is taking this task in hand, and their report will be forwarded to you upon completion.
